

My family listens to K-Love on 96.1 KCLQ from Clinton, MO. I don't have to worry about what my child might hear, because he will always hear something positive. This station has done so much to encourage and be a positive influence on not just surrounding communities, but on the entire state! They have averted people from suicide and have brought hope and peace to so many. Taking K-Love off the air would devastate lives across the state and across this nation. Every one deserves the option to listen to what they wish, whether it be country, rock, classical, rap, blues, jazz, and christian/gospel, it is our right to be able to choose and why not choose something that encourages instead of inciting anger, sadness or depression.
